

Course Name: MAGNUS

Course Description:

The “MAGNUS Leadership” seminar and workshop was created in 2016 by Dr. Mitch Javidi. This cutting-edge approach to leadership development focuses on tactical methods which Officers can use to counter VUCA, enhance their performance, their effectiveness, their wellness and their resiliency. As an end result, class participants emerge as MAGNUS Leaders with deeper understandings of the scientific and practical uses of the Theory of Things, Expectancy and the Reversal Theories of Leadership. Collectively these skillsets enhance an Officer’s ability to activate positive brain and deep emotional intelligence enabling them to practice outstanding leadership. The MAGNUS Leadership workshop utilizes motivational presentations and personal experiences, dynamic group discussions and real-world situations for enhanced learning and applications. This seminar will also instruct on the utilization of MAGNUS Leadership Virtues and Imperatives. This new knowledge will ignite and accelerate transformational leadership mindfulness while teaching explicit practices for the improvement of an Officer’s ability to accomplish results with confidence.
